Assignment 3 RMI calculator

6 Classes:

- ▶  Calculator.java
- ▶  CalculatorClient.java
- ▶  CalculatorServer.java
- ▶  ClientGUI.java
- ▶  Main.java
- ▶  ServerGUI.java

Main Class will launch both client and server, although they can be launched independently also.

Complete input validation with appropriate system messages displayed on both client and server.

Client window can be closed without affecting the server. Closing server window will end the application.

Clear button added to allow for multiple calculations
